Gender and Language

Learning Feb 27 2021

Although Gender Studies have

found their way into most

domains of academic research

and teaching, they are not directly in the spotlight of foreign language teaching pedagogy and research. However, teachers are confronted with gender issues in the language classroom everyday. By the use of language alone, they construct or deconstruct gender roles; with the choice of topics they shape gender identities in the classroom; and their ways of approaching pupils clearly mirrors their gender sensitivity. The book "Gender and Language Learning" aims at raising awareness towards gender issues in different areas of foreign language teaching and learning. The primary objective of the book is to spark

university students', trainee teachers' and in-service teachers' analysis and reflection of gender relations in the foreign language learning and teaching section.
