The American Novel After Ideology, 1961-2000 Jul 23 2020 Claims of ideology's end are, on the one hand, performative denials of ideology's inability to end; while, on the other hand, paradoxically, they also reiterate an idea that 'ending' is simply what all ideologies eventually do. Situating her work around the intersecting publications of Daniel Bell's

The End of Ideology (1960) and J.D. Salinger's Franny and Zooey (1961), Laurie Rodrigues argues that American novels express this paradox through nuanced applications of non-realist strategies, distorting realism in manners similar to ideology's distortions of reality, history, and belief. Reflecting the astonishing cultural variety of this period, The American Novel After Ideology, 1961 - 2000 examines Franny and Zooey, Carlene Hatcher Polite's The Flagellants (1967), Leslie Marmon Silko's Almanac of the Dead (1991), and Philip Roth's The Human Stain (2001) alongside the various discussions around ideology with which they intersect. Each novel's plotless narratives, dissolving subjectivities, and cultural codes organize the texts' peculiar relations to the post-ideological age, suggesting an aesthetic return of the repressed.

De geschiedenis van mijn seksualiteit Oct 06 2021 'De geschiedenis van mijn seksualiteit luidt: dat ik altijd op zoek ben geweest naar iemand die de deuren en ramen zou sluiten, zou zeggen: en nu is het goed. Meer concreet viel ik eerst op mannen en toen op vrouwen, natuurlijk altijd al op vrouwen, op Muriël de roodharige bijlesdocente met de lange benen, op wie niet, maar ik hield mijn ogen of iets anders erg cruciaals ongeopend. Dat doet ook eigenlijk weinig ter zake.' De geschiedenis van mijn seksualiteit is het messcherpe en onconventionele romandebuut van Sofie Lakmaker, ooit tot muze verklaard en later tot lesbische fundamentalist. Een essentieel werk, gedurfder geschreven dan Frenkie de Jong voetbalt. Over het genie dat Sofie Lakmaker is, was of had moeten zijn. 'Sofie Lakmaker en Lil' Kleine delen een brutaal soort eenzaamheid.' - Kees de Koning Sofie Lakmaker (1994) schrijft columns voor De Groene Amsterdammer en LINDA.meiden. Na korte tijd Russisch

en literatuurwetenschap gestudeerd te hebben rondde ze in 2018 haar opleiding filosofie af. Bron: Flaptekst, uitgeverinformatie.

Sapiens Aug 24 2020 Honderdduizend jaar geleden leefde de Homo sapiens nog een tamelijk onbekommerd bestaan in een uithoek van het Afrikaanse continent en deelde hij de planeet met ten minste vijf andere menssoorten. Maar op een zeker moment onderging het brein van deze mens een ingrijpende verandering: nu kon hij zich plots verbeelden dat het gras elders wel eens groener zou kunnen zijn, en dus maakte hij zich op om de wereld te veroveren. In Sapiens neemt Yuval Noah Harari ons mee op een fascinerende reis door de geschiedenis van de mensheid. Wie zijn we? Waar komen we vandaan? En hoe zijn we zo geworden als we nu zijn? In zijn aanstekelijke relaas laat Harari ons kennismaken met het meest dominante wezen op aarde: de mens.

History, the Historian and the Nation Feb 16 2020 This volume is a collection of fifteen lectures and seminar papers delivered between 1979 and 2002 by a leading historian and educationist. It addresses inter-group relations in the context of the importance of history to a Nigeria still engaged in the task of nation-building and national development; and against the background of a national educational policy which, since the 1980s, has marginalised history. Included are eight lectures delivered when the author was teaching at the University of Ibadan, and seven thereafter. Whilst together the papers look at Nigeria as a whole, specific issues are treated, including Benin, Delta Province, The Niger Delta, the Aboh Kingdom, the Isoko, and the Akassa War. Professor Obaro Ikima taught history at the University of Ibadan from 1964-1990, and served as Head of Department, and Dean of Arts.

[A First Book in American History](#) Jan 17 2020 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed

every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

The Vatican Museums Oct 26 2020 A great museum is not only a collection of works of art or artefacts of various interest and various importance: it is also a living organism which has its own history to tell. And if the museum is of ancient origin, this can be of great fascination in itself. It is enough to think of a collection's formation; of its progressive development which, over the centuries, takes account of, and is shaped by, the cultural interests of the time. Or of the acquisition, sometimes fortuitous, of the various works. Or of the changing tastes reflected in their display, and the various methods used in their restoration; or of the political developments or doctrinal implications in which the museum may find itself involved. The Vatican Museums, whose origins go back to the early 16th century, exemplify all these concerns in a particularly comprehensive and fascinating way. Their initial formation, almost in the character of a private collection; their threatened dispersal in the Counter-Reformation; their recovery under the impetus of the intellectual revival in the 18th century; their development, also in defence of the artistic patrimony of the State threatened by exports, at the end of the same century; their subsequent enlargement up to more recent times, thanks to the distinguished patronage of the various Popes; and lastly their incorporation, at times exemplary, in the context of the Vatican Palaces, first with Simonetti's Museo Pio-Clementino, then with Sterns Braccio Nuovo and more recently with Beltrami's Pinacoteca and Passarelli's Museo Paolino: all this constitutes not only a field of study,

comparison, and reflection, but also at times an example which others have followed. The present book, ideally, would have required a far more extensive archival documentation than the author has been able to consult. It is to be hoped that the systematic exploration of the huge, but very scattered, archival sources available may make it possible in future to update, or to amplify, those parts of the book that were unable to benefit from this irreplaceable support. It may be claimed, nonetheless, that it has proved possible to reconstruct the history of the Vatican Museums in sufficient detail, and that this book may prove useful at a time when the history of collecting is arousing increasing interest.

Origin Story Oct 18 2022 This New York Times bestseller "elegantly weaves evidence and insights...into a single, accessible historical narrative" (Bill Gates) and presents a captivating history of the universe -

- from the Big Bang to dinosaurs to mass globalization and beyond. Most historians study the smallest slivers of time, emphasizing specific dates, individuals, and documents. But what would it look like to study the whole of history, from the big bang through the present day -- and even into the remote future? How would looking at the full span of time change the way we perceive the universe, the earth, and our very existence? These were the questions David Christian set out to answer when he created the field of "Big History," the most exciting new approach to understanding where we have been, where we are, and where we are going. In *Origin Story*, Christian takes readers on a wild ride through the entire 13.8 billion years we've come to know as "history." By focusing on defining events (thresholds), major trends, and profound questions about our origins, Christian exposes the hidden threads that tie everything together -- from the creation of the planet to the advent of agriculture, nuclear war, and beyond. With stunning insights into the origin of the universe, the beginning of life, the emergence of humans, and what the future might bring, *Origin Story* boldly reframes our place in the cosmos.

History of China Jun 14 2022 Excerpt from History of China, Vol. 1 It is unnecessary for me to detain the reader with any lengthy remarks by way of introduction to this history. The Chinese Empire presents for our consideration one of the most complicated of existing problems; and the subject is of growing rather than waning importance. In dealing with its history we are not discussing the fortunes of some empire that has long disappeared, nor are we seeking to discern the future of a race that has lost or forgotten the capacity of government; but we are treating of a state and a people that apparently were never, during the long course of their national existence, more powerful and flourishing than they are at this very day. Re-Imagining the Teaching of European History Jun 02 2021 This book explores the challenges of teaching European history in the 21st century and provides research-informed approaches to history teaching that combine civic education, historical consciousness and the teaching of controversial social issues. With contributions from researchers across Europe, the book includes both theoretical- and case-study chapters. The first part of the book addresses issues such as globalisation and teaching in an interconnected world, using multicultural and critical approaches, decolonising education and teaching uncomfortable narratives of the past. The second part of the book showcases thematic chapters dedicated to teaching intersecting topics in the European curriculum such as: violence and armed conflict, social inequality, gender equality, the technological revolution, and religion. Ultimately, this volume promotes criticality, civic engagement, and reflection on social issues, thereby prompting methodological change in the teaching of history as we know it. It will appeal to researchers and students of history education, democratic education and citizenship education, as well as teacher educators and trainee teachers in history.

Beknopte geschiedenis van Nederland Mar 11 2022 Wereldwijd geloven veel mensen dat Nederland een uniek land is. Dat heeft te maken met de onttrekking van veel land aan de zee, maar ook met de Nederlandse handelsgeest, de markante culturele erfenis, de religieuze diversiteit en een eeuwenoude traditie van tolerantie. Sinds de negentiende eeuw zien de Nederlanders ook zelf hun land als moreel voorbeeld, een land waarvan de morele superioriteit in buitenlands en

binnenlands beleid een inspiratie kan zijn voor anderen. In recente jaren maakt het positieve zelfbeeld over Nederland plaats voor negatieve percepties, nu het land zich volgens velen in een identiteitscrisis bevindt. James Kennedy, zoon van een Amerikaanse vader en een Nederlandse moeder en zijn leven lang al geïnteresseerd en gespecialiseerd in de Nederlandse geschiedenis, is de perfecte auteur voor deze Beknopte geschiedenis van Nederland, van het vroegste begin tot nu. Hij beschrijft niet alleen de historische gebeurtenissen, maar plaatst deze ook in internationaal perspectief en vergelijkt ze met ontwikkelingen in andere Europese landen. James C. Kennedy (Orange City, Iowa, 1963) is dean van University College Utrecht, hoogleraar moderne Nederlandse geschiedenis aan de Universiteit Utrecht en columnist van dagblad Trouw. Hij publiceerde eerder onder andere Nieuw Babylon in aanbouw, Een weloverwogen dood en Bezielende verbanden.

The Life of Thaddeus Stevens Aug 04 2021 Excerpt from *The Life of Thaddeus Stevens: A Study in American Political History*, Especially in

the Period of the Civil War and Reconstruction The period of the Civil War and the Reconstruction of the Union has been the subject of more historical inquiry and production within recent years than has any other in American history. The books, essays, magazine articles, monographs and reminiscences that have been devoted to this period indicate the prevalent interest Which the epoch holds for many men of many minds. As the period recedes in time and other events of moment come and go, there may be a recession in this interest, but it is not likely permanently to decline. As the history of modern Europe still centers about the French Revolution, so will the tremendous upheaval of the Civil War continue to occupy the center of the stage in the history of the nineteenth century in America. That struggle has been called from the bench of the Supreme Court of the United States the greatest civil war known in the history of the human race. It is but natural, indeed inevitable, that generations of Americans should be interested in a struggle that has so vitally affected the history and destiny of their nation. The American Heritage History of the 20's & 30's Dec 28 2020 " ... the story of the changes that came to America ... in the years between the two World Wars. At first, as the 1920's dawn, there is the ultraconservatism that rejects Wilson's League of Nations, amends the Constitution to prohibit the sale of alcoholic beverages, suspects every immigrant of being a Red, and places TWK (meaning Trade With the Klan) stickers in merchant-members' shop windows. Then Henry Ford mass-produces flivvers that cost as little as \$290, women get the vote,

girls get a new concept of morality, and a freewheeling, flask-toting citizenry begins its surge to hedonism. They have plenty of examples to emulate: public officials get rich on purloined Navy oil while the President whom they betray dallies in the 'Little White House on H Street' or with his paramour in a little White House closet, the high jinks of high society and Hollywood are amply reported by a sensation-seeking press, the advertising fraternity urges everyone to keep up with the Joneses and endows [them] with everything. The great euphoria reaches its climax with the stock market crash ... Here you see what America was like when factories lay idle and old newspapers become 'Hoover blankets' for evicted families; when angry farmers gathered at foreclosure sales with pitchforks and shotguns to fight for their land; when the International Apple Shippers' Association offered apples on credit to the jobless to sell for five cents apiece on city streets; when Franklin Roosevelt said, 'This nation asks for action, and action now.' and started the kind of action that kept him in the White House for the rest of the Thirties and beyond. To be sure, there were many during those decades who did not drink bathtub gin and hanker for the sinful ways of the city, who were not wiped out by the economic downturn, did not hate 'that man in the White House.' These people are here too, some baffled, some belligerent, all caught in the crosscurrents of a nation in transition."--Jacket flaps.

Madness and Civilization Sep 24 2020 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

Inleiding in de dramaturgie Nov 19 2022 Het beeld van de dramaturg als omgevallen boekenkast die lijnrecht ingaat tegen het grotendeels intuïtieve proces van theatermaken klopt allang niet meer. Het actuele theater vertelt niet alleen een verhaal, maar reflecteert voortdurend op de wereld waarin dat verhaal zich afspeelt en getoond wordt. Daardoor is dramaturgie een onderdeel van het artistieke proces geworden, waarbij

alle theatermakers betrokken zijn. Zij houden zich allemaal bezig met dramaturgisch denken, dat wil zeggen met de vraag hoe je je tot materiaal, proces, publiek en samenleving kunt verhouden. De dramaturg navigeert in dat grensgebied tussen theorie en praktijk, tussen de makers, de voorstelling en het publiek. Inleiding in de dramaturgie geeft voor het eerst een brede introductie van het begrip dramaturgie en van het vak van dramaturg in het Nederlandse taalgebied. Het is bedoeld voor studenten en docenten van theateropleidingen, maar ook voor regisseurs, scenografen, acteurs en voor degenen die als amateur of als leek in theater geïnteresseerd zijn.

Geschiedenis van de wereld in 100 voorwerpen Jun 21 2020 'Zeer intelligent, verrukkelijk geschreven en uitermate fascinerend.' - The Spectator Een geschiedenis van de wereld in 100 voorwerpen biedt een heel originele benadering van de geschiedenis van de mensheid. Het gebruikt de voorwerpen die oude beschavingen hebben achtergelaten als venster, waardoor we de werelden kunnen onderzoeken van de mensen die daar en toen leefden. Maar niet alleen oude beschavingen komen aan bod. Neil MacGregor geeft ons een blik in het leven van de makers en gebruikers van al deze 100 voorwerpen: vanaf de oertijd tot aan het

heden. MacGregor's doel is om ons zoveel mogelijk te vertellen over het belang van de voorwerpen; over een stenen pilaar die de geprekte tolerantie van een Indiase keizer tegen zijn volk laat zien, over de Spaanse munten die het begin van de globale valuta betekenden, over een zilveren beker die de Romeinse dubbele houding ten opzichte van homoseksualiteit demonstreert, of over een Victoriaans servies dat de impact van een rijk onthult. Elk hoofdstuk dompelt de lezer onder in een vervlogen beschaving en elk hoofdstuk is prachtig geïllustreerd met het betreffende voorwerp. De geschiedenis is hier een caleidoscoop, vol met prachtige beelden en verrassende verhalen die onze wereld op een tot nu toe onbekende manier presenteren.
