Business Communication, Business Writing found in departments of Business, English or Communication. This text is designed to help students improve their ability to communicate more effectively especially in a business setting both in writing and orally. It outlines writing concepts essential for all types of business documents, discusses appropriate content and structure for specific types of business documents, and explains how employees can make more effective presentations in both small and larger groups. Contemporary Business Communication prepares students for business communication by employing a hands-on approach--connecting topics, examples, and exercises to the modern workplace. The text provides ample opportunity for students to practice their oral and written skills, and includes strategies for using email, voicemail, the Internet, and other innovations in communication technology. The streamlined Seventh Edition has been completely updated to reflect current trends and practices in the world of business. The revised textbook package now features a web-based version of the Urban Systems Case Study Simulation with an updated, student-friendly BusCom online writing tutorial. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Dr. Fleming's new book -- drawing from an array of business and administrative disciplines -- provides a solid conceptual foundation for understanding, meeting, and exceeding the expectations of organizational stakeholders and preparing for professional, personal, and organizational success in fire administration. The book addresses the various course objectives and learning outcomes for both the Introduction to Fire and Emergency Services Administration course within the FESHE Associate's Model Curriculum and the corresponding bachelor's course, Fire and Emergency Services Administration. Effective Fire & Emergency Services Administration will be an invaluable resource for students (both undergraduate and graduate), and current fire and emergency services personnel of all ranks who are preparing for career advancement, including promotional examinations. It also will serve as a very useful reference for current fire and emergency service operational and administrative officers. This textbook provides a comprehensive introduction for students and professionals who are studying English for business or workplace communication and covers both spoken and written English. Based on up-to-date research in business communication and incorporating an international range of real-world authentic texts, this book deals with the realities of communication in business today. Key features of this book include: use of English in social media that reflects recent trends in business communication; coverage of the concept of communicative competence; analysis of email communication; introduction to informal English and English for socialisation as well as goodwill messages, such as thank you or appreciation messages, which are a part of everyday interaction in the workplace; examination of persuasive messages and ways to understand such messages; an e-resources website that includes authentic examples of different workplace genres and a reference section covering relevant research studies and weblinks for readers to better understand the topics covered in each chapter. This book goes beyond the traditional coverage of business English to provide a broad and practical textbook for those studying English in a workplace setting. This book examines the major business communication theories, delving into their relationships and practical applications. Many business communication studies lack a strong theoretical grounding—a deficit that creates difficulties for researching business communication phenomena and building upon previous studies. The book addresses this issue by cataloging and briefly describing the major business communication theories, as well as giving a typology of these theories to better integrate them. This book provides value to business communication researchers (who can use it to build upon and develop their work), experts in practice (who can apply it to improve business communications), and academics (who can use it to enhance their instructional designs). It also offers insights into new developments on the business communication theory horizon. What is the single quality all successful business professionals have in common? Accompany: 9780072551341 9780072469585 . Korean Business Communication demonstrates the heuristic value of the research on Korean business communication. It is composed of two parts: theory and practice. First, alongside the review of the major research trend of Asian business communication, it explores the contemporary teaching trend of business communication in Korean higher education to define business communication from the local perspective. It also shows how Korean business professionals manage facework within the communication rules or cultural values. Second, Korean business communication data are analyzed with the main sources of three competences, discourse competence, sociolinguistic competence, and strategic competence. Emphasis is on stakeholder communication genres, Korean service encounters, Korean business apology, and Korean CEO's online greetings. By examining how business communication and Korean communication are projected to Korean business, Korean Business Communication provides the audience knowledge far beyond cultural stereotypes in Korean business communication illustrated in classical textbooks on Korean business communication. A useful book for researchers and students in Asian business communication; intercultural communication and global communication. Rhetorical Theory and Praxis in the Business Communication Classroom responds to a significant need in the emerging field of business communication as the first collection of its type to establish a connection between rhetorical theory and practice in the business communication classroom. The volume includes topics such as rhetorical grammar, genre awareness in business communication theory, the role of big data in message strategy, social media and memory, and the connection between rhetorical theory and entrepreneurship. These essays provide the business communication scholar, practitioner, and program administrator insight into the rhetorical considerations of the business communication landscape. For undergraduate courses in business communication. Lukas Lemcke challenges the conventional understanding of the Late Roman administration as a three-tiered system by demonstrating that its hierarchy of communication was distinctly two-tiered. In so doing, he offers a new perspective on the functional and organizational structure of this administrative system and advances our understanding of the vicariate by introducing a new functional dimension and by reassessing its development during the fifth and early sixth centuries. Based on a comprehensive collection of legal, epigraphic and other literary documents to which the concept of "formal communication" is applied, the author explores the forms and development of administrative communication channels that facilitated the official exchange of information from Constantine to Justinian and thus reveals how emperors actively sought to regulate the centripetal and centrifugal flow of official information. This book, Basic Business and Administrative Communication, is written with the ultimate aim of providing readers with basic business communication and administrative concepts. The book considers communication as a vital tool to the success of every business, and therefore presents in-depth coverage of the following topics: • Overview of communication • Models of communication • Context, levels, media, and barriers to communication • Lines of communication • Oral communication • Non-verbal communication • Listening in business communication • Essentials of effective business writing • Written communication • Job hunting, preparing resumes and interview guidelines • Meetings as an administrative function in organisations • Requisites of valid meetings • Roles of the secretary and chairperson at meetings • Report writing • The role of information communication technology in business communication The author recognises the importance of skill development and provides practical examples of business documents such as business letters, memos, and itinerary that readers can follow to create their own to maximise their effectiveness and contribute to organisational success. The book is essential reading material for undergraduate and higher national diploma business students. Communication Skills for Business Professionals is a student-friendly introduction to the principles and practice of effective communication in the workplace. Engagingly written and full of real-life examples, it explains the key theories underpinning communication strategies and encourages students to consider how to apply them in a contemporary business environment. After working through foundation topics such as understanding the audience, persuasion and influence, negotiation and conflict management, and intercultural complexities, students will explore the various modes and contexts of workplace communication including meetings, oral communication, written reports and correspondence. The text incorporates discussion of new digital technologies such as virtual real-time communication, and dedicates an entire chapter to the specific considerations involved in writing for the web. With its emphasis on Australian contexts and examples, Communication Skills for Business Professionals is an excellent introduction to the world of professional communication.
