Innovative Strategies for Accelerated Human Resources
Development in South Asia Oct 26 2020 Assessment of
student learning outcomes (ASLO) is one of the key
activities in teaching and learning. It serves as the source of
information in determining the quality of education at the
classroom and national levels. Results from any
assessment have an influence on decision making, on
policy development related to improving individual student
achievement, and to ensure the equity and quality of an

education system. ASLO provides teachers and school heads with information for making decisions regarding a students' progress. The information allows teachers and school heads to understand a students' performance better. This report reviews ASLO in three South Asian countries---Bangladesh, Nepal, and Sri Lanka---with a focus on public examinations, national assessment, school-based assessment, and classroom assessment practiced in these countries.

Waste Dec 08 2021 Waste: A Handbook for Management, Second Edition, provides information on a wide range of hot topics and developing areas, such as hydraulic fracturing, microplastics, waste management in developing countries, and waste-exposure-outcome pathways. Beginning with an overview of the current waste landscape, including green engineering, processing principles and regulations, the book then outlines waste streams and treatment methods for over 25 different types of waste and reviews best practices and management, challenges for developing countries, risk assessment, contaminant pathways and risk tradeoffs. With an overall focus on waste recovery, reuse, prevention and lifecycle analysis, the book draws on the experience of an international team of expert contributors to provide reliable guidance on how best to manage wastes for scientists, managers, engineers and policymakers in

both the private and public sectors. Covers the assessment and treatment of different waste streams in a single book
Provides a hands-on report on each type of waste problem as written by an expert in the field Highlights new findings and evolving problems in waste management via discussion boxes
