Using an international approach, this book demonstrates the way that the intersection of gendered and ethnic identities operate at work and home. It provides an authoritative account of ethnicity and gender at work, and the theoretical underpinning explanations. A

collection of 8 short stories set in an alternative pre-WW1 Ireland, centred around an illegal laboratory attempting to discover the origins of the "Fomorians" - the Irish orcs. Considers dispute between Cripple Creek Coal Co. and Usibelli Coal Mine, Inc. over proposed extension of Alaska Railroad through Usibelli lands. Not long after Alaska was purchased by the United States from Russia in 1867, the U.S. Revenue Cutter Service (USRCS) made its first appearance in the Bering Sea. Over the next forty-eight years the ships and men of the USRCS firmly established U.S. sovereignty in the area and performed amazing acts of

rescue and humanitarian aid - contributions that have received little attention until the publication of this book. Bringing together widely scattered documentation and records, maritime historians Dennis Noble and Truman Strobridge chronicle events in the service's colorful history. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the

Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) The student affairs market has experienced a great boom in the last decade. Based on the fourth edition of the indispensable guide to the laws that bear on the conduct of higher education, this updated student affairs edition provides a reference and guide for student affairs practitioners and graduate students in student affairs administration courses. This volume combines sections that are pertinent to student affairs practitioners, as well as the government regulatory and administrative issues found in the full Fourth Edition. It is thus the most

comprehensive and easy-to-use volume for student affairs officers and students. This new edition of The SAGE Handbook of International Corporate and Public Affairs builds on the success of the first edition (2005) by comprehensively updating and enhancing the material and structure, setting a new standard for the practitioner and student of the global public affairs discipline. The new edition includes increased international coverage of the field, and a strong focus on emerging trends, as well as providing a comprehensive overview of the foundations and key aspects of the discipline. The Handbook is organised into six thematic

sections, including a generously-sized section devoted to case studies of public affairs in action: Foundations of PA PA and its relationship to other Key Disciplines Emerging Trends in PA The Regional Development and Application of PA Case Studies of PA in Action Tactical Approaches to Executing PA. Containing contributions from leading experts in the field today, this Handbook is designed to serve the needs of scholars, researchers, students and professionals alike. Through his incredibly varied fifty-year career, John J. Healy left an indelible mark on the Canadian and American west. At different points in his storied

life, Healy was a soldier, a trapper, a prospector, a free trader, an explorer, a horse dealer, a scout, a lawman, a newspaper editor, a speculator, a merchant, a capitalist, a historian, and a politician. He defied classification while defining the lifestyle of a frontier adventurer and buccaneer capitalist in the late nineteenth century. In Healy's West, Gordon E. Tolton cuts through the mythology and controversy of this larger-than-life character, giving us the most complete and truly balanced account of Healy's life ever published. From Irish famine to army saddle; from scouting on the Oregon Trail to digging for mountain gold in

Idaho; from taking on powerful monopolies to trading with the Blackfoot; from political manoeuvring to hunting down rustlers behind a sheriff's badge, Healy challenged life, nature, enemies and, governments head on—in print, in business, and in physical combat. An entertaining and critical portrayal of the west's most charismatic figure, Healy's West is a must-read for any history buff. In this masterly biography, F.S.L. Lyons tackles the life and times of one of the greatest Irish statesmen of modern times. One of modern Irish biography's great triumphs, Charles Stewart Parnell has never been approached or

surpassed. Charles Stewart Parnell, an enigmatic, icy aristocrat, was the unlikely and unchallenged leader of Irish nationalism from the mid-1870s, in its early heroic phase. Without him, Home Rule would not have become the formidable cause that it was. Daniel O'Connell first articulated modern Irish nationalism; Parnell first organised it. As leader of the Irish Parliamentary Party from 1875 until his death in 1891, Parnell became a figurehead for Irish nationalist ambition and used his influence to further the cause of Irish independence in the British parliament. Parnell not only mobilised nationalist Ireland,

exploiting discontent with the land system and a desire for political autonomy, he also subverted the usages of nineteenth-century British politics by supporting the introduction of the filibuster into the House of Commons. He divided Gladstone's Liberal party between those who supported Home Rule and those who opposed it and generally forced the Irish question to the heart of British politics where it remained until 1922. Even today, the continuing uncertainty over the future of Northern Ireland is a remote legacy of Parnell. Parnell's fall - the product of his doomed and passionate love affair with Katharine O'Shea -

was the most traumatic moment in nationalist history before 1916. It divided a generation. The passions it gave rise to, brilliantly recalled in the Christmas dinner scene of James Joyce's *A Portrait of the Artist as a Young Man*, are fully explored in this magnificent work of scholarship. bestselling mystery series

Seventeen-year-old Megan Carver was an unlikely runaway. A straight-A student from a happy home, she studied hard and rarely got into trouble. Yet six months on, she still hasn't been found. Missing persons investigator David Raker knows what it's like to grieve. He knows the shadowy world of the lost, too. So when he's hired by Megan's parents to find out what happened, he recognizes their pain—but knows that the darkest secrets can be buried deep. And Megan's secrets could cost him his life. Raker's investigation takes him through a confounding string of surprises and deceptions. People close to Megan turn up dead. Others

remain too terrified to talk. And soon the conspiracy of silence leads Raker towards a forest on the edge of the city. A place with a horrifying past as the hunting ground for a twisted serial killer. A place known as the Dead Tracks. . . .
