The saga of Mennonite women's organizations is a story of struggle and triumph, productivity and misgivings, questions and celebrations. During the twentieth and twenty-first centuries, women's groups have offered Mennonite women a means of serving others by sewing clothing, laboring over quilts, rolling bandages, and packing school kits. Women's groups have also provided Mennonite women the opportunity to test their skills as leaders and give voice to callings they felt in a church that has not always valued their gifts for ministry. In this vibrant portrait of Mennonite Women USA, Anita Hooley Yoder paints with both broad and subtle strokes the one-hundred-year history of an organization that nurtures local church women's groups and connects Mennonite women across the world.

In the final Nine Circles novel, there is a fine line between pleasure and pain, between sin and salvation. Jackie Ashenden shows what happens when a dangerously irresistible man and woman collide, in and out of the bedroom. In *Bed with the Billionaire* Known to the underworld only as Jericho, billionaire Theo Fitzgerald is one of the most powerful men in the world. But his plan is to tear down the criminal empire his father created from the inside out—unless someone else does it for him. He suspects a bold, seductive woman named Temple Cross might be trying to take him out with it—but for the chance to burn in the heat she gives off, he's not sure if he minds... A hired hit woman, Temple has been waiting to get close to Jericho her whole life. The man who destroyed her family is worth looking in the eye before she kills him—but when she's finally alone with Jericho, he's nothing like the ruthless barbarian she imagined. Her reaction to his touch is explosively sexual—and their emotional connection is too powerful for her to ignore. Is she his shot at redemption? Or will he have to risk losing her love to save her

life? Revenge and redemption, pain and passion collide in this stunningly emotional, edgy, sexy romance from Jackie Ashenden. As Light as a Feather or An Uncommon Affair By Dr. F. Walton Avery, MD, MTS Do we seek to have control over how we die? The question, of course, is whether or not suicide is an appropriate response to suffering at the end of life. Throughout the book the underlying theme is how we judge what is a right course of action—what drives a man or

woman to forsake his or her own spouse and children? As *Light as a Feather* or *An Uncommon Affair* shows us the intentional or unintentional factors that play on the lives of the chief characters and how they react to those factors. The major function that plays on the chief characters is lust and love and how they interplay. One of the factors that comes into play near the end of the narration is inoperable cancer, a factor that pushes all other life experiences and relationships to the rear. A prominent aspect of the end of the book is how the chief characters react to death.

**Early Reviews**

**The Arc** is full of golden nuggets. One just has to mine them for themselves if they haven't already. **The First Arc** is a three dimensional **On the Road**. We travel on land, air and sea, from the desert to the Alps, Las Vegas to Mallorca, and from bliss to despair and back up again forever. Peter has done what most of us only wish we had done. The ocean, like life, has currents which go in great circles. Life arcs around for most of us until we learn what we need to learn. I found many of my answers here. I have known Peter for decades and we now know what grace abounds for even us unlovelies. Peter's quest for fullness and total satisfaction has sent him on an incredible journey. I have never known an unknown that has met so many well knowns. What is this brush with fame for? The answers are here for you and me. Peter is too humble to mention this. He is now working on his 63rd career.

Drawing on their shared experiences working with Aboriginal communities, the authors examine the outcomes of restorative justice projects, paying special attention to such prominent programs as conferencing, sentencing circles, and healing circles. They also look to Aboriginal justice reforms in other countries, comparing and contrasting Canadian reforms with the restorative efforts in New Zealand, Australia, and the United States.

**Love Inspired** brings you three new titles! Enjoy these uplifting contemporary romances of faith, forgiveness and hope.

**AN AMISH WIFE FOR CHRISTMAS** North Country Amish by Patricia Davids In danger of losing guardianship of her troublemaking teenage brother,

Bethany Martin must make a choice by Christmas: send him to family in another state—or get married. When Michael Shetler joins their small Amish community, he might just be the answer to Bethany's prayers! **THE TWINS' FAMILY CHRISTMAS** Redemption Ranch by Lee Tobin McClain Widowed pastor Carson Blair planned a quiet Christmas week with his twin daughters...until veteran Lily Watkins gets snowed in at Redemption Ranch with them. Though the photographer seems to be hiding a secret about his late wife, his little girls insist she'd make the perfect addition to their family. **LONE STAR CHRISTMAS** Lone Star Legacy by Jolene Navarro Jackie Bergmann's determined to complete her late mother's twenty-year-old mission of restoring the town's historic buildings—but she needs permission from the property owner. Max Delgado agrees to give her access, but he has one request: that she help him care for his orphaned brothers. **Gothic Architecture and Sexuality in the Circle of Horace Walpole** shows that the Gothic style in architecture and the decorative arts and the tradition of medievalist research associated with Horace Walpole (1717–1797) and his circle cannot be understood independently of their own homoerotic culture. Centered around Walpole's Gothic villa at Strawberry Hill in Twickenham, Walpole and his "Strawberry Committee" of male friends, designers, and dilettantes invigorated an extraordinary new mode of Gothic design and disseminated it in their own commissions at Old Windsor and Donnington Grove in Berkshire, Lee Priory in Kent, the Vyne in Hampshire, and other sites. Matthew M. Reeve argues that the new "third sex" of homoerotically inclined men and the new "modern styles" that they promoted—including the Gothic style and chinoiserie—were interrelated movements that shaped English modernity. The Gothic style offered the possibility of an alternate aesthetic and gendered order, a queer reversal of the dominant Palladian style of the period. Many of the houses built by Walpole and his circle were understood by commentators to be manifestations of a new queer aesthetic, and in describing them they offered the earliest critiques of what would be called a "queer architecture." Exposing the role of sexual coterie in the shaping of eighteenth-century English architecture, this book offers a profound and eloquent revision to our understanding of the origins of the Gothic Revival and to medievalism itself. It will be welcomed by architectural historians as well as scholars of medievalism and specialists in queer studies. With over 30 of the most revealing interviews

Bowie has given in 45 years, *Bowie on Bowie* tells the story of Bowie's restlessly inventive career in his own words. Over the decades Bowie has always answered honestly and articulately in interviews, analysing his own past and trying to explain the motivations behind his latest persona. Bowie was the first artist to regard the interview as a means of artistic expression in itself and this is as close to an autobiography as he has come. In 1973, Martin Amis wrote in the *New Statesman*, "Bowie himself is unlikely to last long as a cult". The 'cult' of David Bowie has now lasted for several decades and while Amis's piece is not included in *Bowie on Bowie*, there are over 30 interviews and profiles that document his changes. Widely regarded as a revolutionary influence on writers in fashion, art and film, as well as music, he discusses the full extent of his interests in these revealing interviews, drawn from *NME*, *Melody Maker*, *The Face*, *Q*, *Mojo* and *GQ*. Sean Egan has compiled Bowie's most revealing interviews into a riveting commentary on 50 years of personas and styles, tracing each step from Ziggy Stardust, Aladdin Sane to The Thin White Duke and into the elder statesman that Bowie has become. This essential collection of 50 years of interviews from Rock's most restlessly creative spirit is as close to an autobiography that Bowie has come. Bowie came to fame at a time when rock journalism came into its own, and he came to see interviews as another opportunity for artistic expression. Some of rock's greatest writers are included in this collection, Robert Hilburn and Charles Shaar Murray to Allan Jones and Steven Wells alongside an interview with Alexander McQueen, the fashion designer, all of which reveal the extent of Bowie's interests over the decades with a rare articulacy and thoughtfulness. Few musicians have had the wide-ranging influence Bowie has cast over writers, fashion, art and film as well as music, and here is the ultimate introduction to Rock's most distinctive voice.

H. P. Lovecraft was the eerily prescient genius who first electrified readers in *Weird Tales* magazine. His tales changed the face of horror forever and inspired the bloodcurdling offerings of a new generation. These brilliant dark visionaries forge grisly trails through previously uncharted realms of mortal terror. *THE PLAIN OF SOUND* by Ramsey Campbell: In the beginning they could find no source for the throbbing vibrations; in the end they could find no escape. *THE HORROR ON THE BEACH* by Alan Dean Foster: Along the coast of Santa Barbara, the mighty Pacific Ocean can no longer contain—or

conceal—an ancient, insatiable evil stirring in its depths. THE KISS OF BUGG-SHASH by Brian Lumley: It mattered not how innocent the students' motives seemed; the demon had been summoned, and the price had to be paid—every last red drop of it. THE FISHERS FROM OUTSIDE by Lin Carter: A man obsessed with unlocking the secrets of a race older than time would not be disappointed—doomed perhaps, devoured possibly, but definitely not disappointed. AND TWENTY-ONE MORE TALES OF FEAR . . . THE STONE ON THE ISLAND by Ramsey Campbell THE STATEMENT OF ONE JOHN GIBSON by Brian Lumley DEMONIACAL by David Sutton THE SLITHERER FROM THE SLIME by H. P. Lowcraft THE DOOM OF YAKTHOOB by Lin Carter THE KEEPER OF THE FLAME by Gary Myers DEAD GIVEAWAY by J. Vernon Shea THOSE WHO WAIT by James Wade THE KEEPER OF DARK POINT by John Glasby THE BLACK MIRROR by John Glasby I'VE COME TO TALK WITH YOU AGAIN by Karl Edward Wagner THE HOWLER IN THE DARK by Richard L. Tierney THE WHISPERERS by Richard A. Lupoff LIGHTS! CAMERA! SHUB-NIGGURATH! by Richard A. Lupoff SAUCERS FROM YADDITH by Robert M. Price VASTARIEN by Thomas Ligotti THE MADNESS OUT OF SPACE by Peter H. Cannon ALIAH WARDEN by Roger Johnson THE LAST SUPPER by Donald R. Burleson THE CHURCH AT GARLOCK'S BEND by David Kaufman THE SPHERES BEYOND SOUND (THRENODY) by Mark Rainey This volume explores the interaction of poetry and mathematics by looking at analogies that link them. The form that distinguishes poetry from prose has mathematical structure (lifting language above the flow of time), as do the thoughtful ways in which poets bring the infinite into relation with the finite. The history of mathematics exhibits a dramatic narrative inspired by a kind of troping, as metaphor opens, metonymy and synecdoche elaborate, and irony closes off or shifts the growth of mathematical knowledge. The first part of the book is autobiographical, following the author through her discovery of these analogies, revealed by music, architecture, science fiction, philosophy, and the study of mathematics and poetry. The second part focuses on geometry, the circle and square, launching us from Shakespeare to Housman, from Euclid to Leibniz. The third part explores the study of dynamics, inertial motion and transcendental functions, from Descartes to Newton, and in 20th c. poetry. The final part contemplates infinity, as it emerges in modern set theory and topology, and in contemporary poems, including narrative poems about modern cosmology. Guillain Barre syndrome is an horrific and very frightening illness, basically

this illness takes away all of your bodily functions, to the level where you cannot do anything for yourself (even breathe), and you truly believe you might die, unfortunately some do. The one characteristic of Guillain Barre syndrome is that it in no way affects the function of your brain, to be fully aware of what is going on around you yet be unable to move or even speak is mind-glowingly awful. It was because of the retention of all his mental faculties that the author was able to chronicle all the suffering in accurate detail. This level of lucidity and accuracy makes this book a compelling read for anyone, even those without the illness, as a "human interest" tale of the biggest battle this author ever had to face. Of course this book will be of use to fellow sufferers and their families, but it is aimed at the wider audience as well. There is some biography at the start of the story to give you some idea of the authors background, which saw him as a serving soldier in the Armed Forces. Nothing has been left out this story, however unpalatable it may be, from the rapid decline, the loss of all of bodily functions, and eventually the need for life-support systems. The story encompasses all of the highs and lows, the raw emotions, and personal thoughts of this illness, and there are many. The lighter side of the story comes later in the book, dealing with the immense battle it took to regain all the physical functions, which people take for granted, like breathing, talking, eating, drinking and having to learn to walk all over again at forty years of age. Unlike so many other books, Grace and Power rejects gossip and conspiracy theory to tell the story of John and Jackie's three years in the White House soberly, comprehensively and sensitively, from beginning to sudden end. Sally Bedell Smith's book on John and Jackie Kennedy was hailed by authoritative reviewers on both sides of the Atlantic as the most distinguished and well-written book on a perennially fascinating subject for years. In the US the hardback was high on the New York Times bestseller list for weeks. It is an immensely poignant chronicle of pivotal historical events seen from the inside out, from within the private home of the President and First Lady. Amidst the superficial opulence of their social circle, we see the Cuban Missile Crisis and the burgeoning American civil rights movement from the perspective of an invalid president often barely well enough to appear in public. Together with his young wife, abandoned by her husband's relentless womanising, nevertheless

changed the politics and style of America. *Grace and Power* is the classic account of that time. This easy-to-implement classroom resource provides sixth grade students with the tools they need to improve their grammar skills. Students will receive daily practice with punctuation, identifying parts of speech, capitalization, spelling, and more. *180 Days of Language* features 180 quick activities and lessons that are correlated to state and national standards. Digital resources and assessment tips are also included. A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (*Vanity Fair*). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge. “There are many felting books that focus on creating small animal toys, but few contain projects with as much verve as those in this book.” —Library Journal You can see how cute these woolbuddies are. You’re not going to believe how easy it is to make them! Tired of searching for special toys that weren’t mass-produced, former Lucasfilm animator Jackie Huang created the beloved Woolbuddy, a collection of all-natural stuffed animals that reflect his unique imaginative vision. He went on to capture fans at craft fairs, Comic-Con, and specialty boutiques. Now Huang teaches you how, using just some wool and a

needle, you can make a wide-eyed owl, a toothy shark, a fuzzy sheep, a towering giraffe, and many more simple yet sensational projects. With step-by-step instructions and helpful how-to photographs, crafters can create clutchable keepsakes to be instantly enjoyed and forever cherished. New York City trauma surgeon, Dr. Christopher Ravello, has it all. A breathtaking, vivacious wife. Lovely children. Life-saving work, and a beautiful home in one of the City's most coveted neighborhoods. But in an instant, his world is shattered. The senseless assault of Ravello's mother leaves her barely alive, spurring him to forsake a lucrative career in medicine, and plunging him headlong into the brutal, unforgiving world of a New York City homicide detective. Head of the new Division of Medical Crimes, Ravello's first case pits him against a brilliant, sadistic serial killer preying on the City's most vulnerable citizens. Mathematical circles, with their question-driven approach and emphasis on problem solving, expose students to the type of mathematics that stimulates the development of logical thinking, creativity, analytical abilities, and mathematical reasoning. These skills, while scarcely introduced at school, are in high demand in the modern world. This book, a sequel to *Mathematical Circle Diaries, Year 1*, teaches how to think and solve problems in mathematics. The material, distributed among twenty-nine weekly lessons, includes detailed lectures and discussions, sets of problems with solutions, and contests and games. In addition, the book shares some of the know-how of running a mathematical circle. The book covers a broad range of problem-solving strategies and proofing techniques, as well as some more advanced topics that go beyond the limits of a school curriculum. The topics include invariants, proofs by contradiction, the Pigeonhole principle, proofs by coloring, double counting, combinatorics, binary numbers, graph theory, divisibility and remainders, logic, and many others. When students take science and computing classes in high school and college, they will be better prepared for both the foundations and advanced material. The book contains everything that is needed to run a successful mathematical circle for a full year. This book, written by an author actively involved in teaching mathematical circles for fifteen years, is intended for teachers, math coaches, parents, and math enthusiasts who are

interested in teaching math that promotes critical thinking. Motivated students can work through this book on their own. In the interest of fostering a greater awareness and appreciation of mathematics and its connections to other disciplines and everyday life, MSRI and the AMS are publishing books in the Mathematical Circles Library series as a service to young people, their parents and teachers, and the mathematics profession.

**LAZARUS** Lazarus Graham is Texas Ranger: tough, hard, and inflexible. He has no time for life's fripperies. When he runs into Beatrice Cartwright again, his life turns upside down. Being a Graham isn't easy, and it's about to get a lot harder for one stubborn lawman and the woman who still owns his heart.

**SAMUEL** Samuel Graham is a hopeless flirt who finally finds a woman who makes him want to settle down. When Kim runs from commitment, Sam has to make the hardest choice of his life. Pursue the woman he's fallen in love with, or move on and protect his heart?

**GRANT** Grant Graham has avoided romantic entanglements since a broken heart ten years earlier. The intense cowboy doesn't know what hit him after a whirlwind named Katie Malloy lands in his lap. Literally. Katie has spent her life being clumsy, making mistakes, and apologizing for the disasters she causes. Grant doesn't want to be the unlucky rescuer, but love comes in many disguises, and he won't know it hit him until he leaves her behind.

In November 1997 English Heritage announced the discovery of a vast prehistoric temple in Somerset. The extraordinary wooden rings at Stanton Drew are the most recent and biggest of a series of remarkable discoveries that have transformed the way archaeologists think of the great monuments in the region, including Avebury and Stonehenge; one of the world's most famous prehistoric monuments, top tourist site and top location for summer solstice celebrations. The results of these discoveries have not been published outside academic journals and no one has considered the wider implications of these finds. Here Mike Pitts, who has worked as an archaeologist at Avebury, and has access to the unpublished English Heritage files, asks what sort of people designed and built these extraordinary neolithic structures - the biggest in Britain until the arrival of medieval cathedrals. Using computer reconstructions he shows what they looked like and asks what they are for. This is the story of the discovery of a lost civilisation that spanned five centuries, a civilisation that now lies mostly beneath the fields of Southern England. Quick,

easy, effective activities support standards and help students improve skills they need for success in testing.
