Brain Power Enrichment Programs aim to develop problem-solving abilities in students who wish to improve their skills. Additionally, the programs may provide challenging, stimulating and inspirational learning experiences through engagement with problem solving for gifted students. The Student Version book accompanies a Level One student through his/her first semester of the problem solving program (or it may be used independently as a problem solving workbook). However, this Teacher Version may be used by a teacher or tutor as it has, in addition to the content of the Student Version, short instructions for each lesson as well as answers to problems. All Brain Power programs are based on a step-by-step approach, which enables students to understand problems of increasing complexity. Level One begins to equip students typically in grades 4 to 6 with various problem solving strategies and techniques, and supports the application of these skills to math, language arts, study habits and the general learning process. In Level One, students are introduced to four critical steps in problem solving: 1) Understanding the problem 2) Defining a plan or strategy 3) Solving the problem 4) Checking the answer. The implications for improving one's problem solving skills are numerous. These include a more positive attitude toward math and science,

improved thinking flexibility and creativity in all subject areas, as well as increased success in academic, gifted, university admissions, and professional program tests (many of which are designed with an emphasis on assessing higher-order thinking skills). Moreover, knowledge of a range of problem solving strategies, coupled with experience in their application, have benefits which transcend the classroom and enter the realm of professional, social and intellectual accomplishment. This workbook provides a solid, familiar format for adults being treated for chemical dependency to write down their thoughts and express their conflicts. Step Workbook for Adult Chemical Dependency Recovery is designed to encourage patients not only to answer questions, but to ask them as well. It enables patients to examine their addiction in the context of their entire life structure. ? Step 1 helps the chemically dependent patient identify the seriousness of his or her problem by writing it down. ? Step 2 helps the patient examine his or her irrational and self-destructive behavior. ? Step 3 aids the patient in creating new ways of thinking, enabling the realization that there are aspects of one's life that are out of his or her control.? Step 4 encourages reflection on the positive and negative experiences in the patient's life.? Step 5 helps the patient verbalize what he or she has written in Step 4. Step Workbook for Adult Chemical Dependency Recovery is an essential tool for every program providing treatment services for chemically dependent adults.
